**MESSAGE FROM EDITORIAL BOARD OF
THE NEPALESE JOURNAL OF AGRICULTURAL ECONOMICS (NJAE)-2020 Issue**

Call for Research Papers

The *Nepalese Journal of Agricultural Economics* (the *Journal*) is an annual publication of the Nepal Agricultural Economics Society. The *Journal* is an important platform in Nepal for sharing research works on agricultural economics, understood broadly to cover a number of allied areas such as food and agricultural policy, agricultural markets and trade, adoption of new technologies and productivity and farmers' income, natural resource and environmental economics and food and nutrition security.

The Editorial Board of the Journal is very happy to issue this Call for Papers – inviting research articles to be considered for publication in the Journal's 2020 issue.

Guidelines for the submission of research articles

Scope/areas – The *Journal* publishes research papers on *agricultural economics*, understood broadly to cover a range of allied areas such as food and agricultural policy, agricultural markets and trade, technological progress, productivity growth and farmers' income, natural resource and environmental economics, and food and nutrition security - but not necessarily limited to these subjects.

Papers with high analytical content – The *Journal* prioritizes research papers with high analytical content (for example based on the rigor of data analysis using appropriate quantitative tools), as well as – in addition to analytical rigor – that address prominent policy issues.

Original work – The paper submitted should be fresh or original. Submission of a paper implies that it has not been published previously and is not under consideration for publication elsewhere. Many journals these days undertake *similarity checks* using software to verify that most of the write-ups are fresh. The editors of this *Journal* might as well run those checks.

Paper length – Research articles should not exceed 7,000 words, including references, footnotes, tables, figures and appendices (that means, the target range for the main body of the paper is about 5,000 words).

नेपाल कृषि अर्थशास्त्र समाज

हरिहरभवन, ललितपुर

NEPAL AGRICULTURAL ECONOMICS SOCIETY (NAES)

Hariharbhawan, Lalitpur, Nepal.

Manuscript - The manuscript should be prepared with a font size of 12, Times New Roman, double spaced and with US spelling style. The papers should follow this order: Title, Author (s) name and address and e-mail for correspondence, Abstract, Keywords, Main text (introduction, objectives, conceptual/ analytical framework, research methods/techniques, discussion, conclusion), Acknowledgement, Appendix, References, Figures, and Tables. The *Journal* follows Harvard **reference system** (see Annex below for more details on this).

Review process - Acceptance, rejection, and acceptance with corrections – Following the standard practice of the peer-reviewed *Journals*, all submitted papers will be screened initially by one or more members of the editorial committee, followed by blind-reviews by two selected reviewers who would be asked for their recommendations for: rejection; acceptance; and acceptance with revisions.

Submission – Papers should be submitted via e-mail to the following address;

Editor-in-Chief
 Dr. Ramesh Sharma
 Nepalese Journal of Agricultural Economics(NJAE)
 Email: rsharma2556@gmail.com
 Kathmandu, Nepal

Cc:
 General Secretary
 Dr. Devendra Gauchan
 Nepal Agricultural Economics Society (NAES)
 Email: nepalagricosociety@gmail.com
 Web: www.naes.org.np
 Kathmandu, Nepal

Deadline for submission – The final draft of the paper should be submitted to Chief Editor for reviews by **30 September 2020**. The Editorial Board welcomes queries from potential contributors, including clarification and discussion on the paper itself, with a view to improving the quality of the paper.

Annex 1 – Further details on the Guidelines

Title of the Article: It should be short and specific.

Author's Identification: To protect anonymity in the review process, the authors should not show their name (s) and acknowledgments on the first page but on a separate page.

Abstract: The abstract should be informative and concisely state the scope of work, methodology in original and principal findings, and should not exceed 200 words. The abstract should not contain abbreviations or references.

Key Words: Key words (3-6) should be given at the end of the abstract to facilitate computer search.

Tables and Illustrations: The units should be in metric system. The tables and illustrations in size adjustable in one or two columns of the Journal along with captions should be placed at the end of the text, but their place in the text should be indicated. Numerical results should be presented in the form of either tables or figures, but not both.

Figures and line drawings: These should be of quality suitable for printing and will not normally be redrawn by the publisher.

Formulae: Formulae should be typewritten, if possible. Leave ample space around the formulae. Subscripts and superscripts should be clear. Greek letters and other non-Latin or handwritten symbols should be explained in the margin where they are first used. Take special care to show clearly the difference between zero (0) and the letter O, and between one (1) and the letter l. Give the meaning of all symbols immediately after the equation in which they are first used.

Footnotes: Footnotes should only be used if absolutely essential. In most cases it should be possible to incorporate the information in normal text. If used, they should be numbered in the text, indicated by superscript numbers and kept as short as possible.

Reference style

References should be cited in the text according to the Harvard reference system, that is, use the last name of the author(s), the date of publication and, following quoted material, the page references. Also note:

नेपाल कृषि अर्थशास्त्र समाज

हरिहरभवन, ललितपुर

NEPAL AGRICULTURAL ECONOMICS SOCIETY (NAES)

Hariharbhawan, Lalitpur, Nepal.

1. Ibid. (and the like) not used when repeating citations. Simply repeat the original citation verbatim, e.g. (Orwell, 1945).
2. Multiple citations within parentheses should be divided by a semi-colon, and there should be no use of '&' within such multiple references. References to works published in the same year should be cited e.g. (Smith, 1991a, b).
3. Multiple citations within text should be ordered by date, not alphabetically by author's name, e.g. (Smith, 1902; Jones and Bower, 1934; Brown, 1955, 1958a, b; Green, 1995).
4. *et al.* may be used in citations within the text when a paper or book has three or more authors, but note that all names are given in the reference itself.
5. Page spans in references should be given in full, e.g. Sedgewick (1935: 102-103).
